PROFILE:

Experienced Angular developer with 5+ years on web and hybrid mobile products. I handle both the Angular front end and the Nest.js back end, two frameworks that share modules, dependency injection and TypeScript. I have carried out several major Angular upgrades and a migration to Vue.js, and I work in Agile teams day to day.

EXPERIENCE:

FULLSTACK DEVELOPER | JAN 2024 – PRESENT

Neoshore Madagascar

- Built a scheduling web app in Angular
- Split the back end into microservices, with APIs written in Nest.js and Express.js
- Migrated the codebase from Angular 17 to 21, adopting standalone components, signals and the new control flow
- MySQL database modeling and query optimization

Tech stack: Angular 17-21, Vue.js, Nest.js, Express.js, MySQL, Python

ANGULAR / IONIC FRONTEND DEVELOPER | JUN 2023 – JAN 2024

Neoshore Madagascar

- Shipped a hybrid web and mobile version of the scheduling tool with Ionic and Capacitor
- Ported the application from Angular to Vue.js
- Turned mockups into responsive, accessible screens
- Updated Angular from 14 to 17
